MILEPOST 408

WELCOME TO OUR RETREAT

Beautiful views, winding trails, never-ending forests. Milepost 408 is the location of Mt. Pisgah, which is situated off the Blue Ridge Parkway and one of the most scenic and popular hikes in Asheville. The mountain and thousands of surrounding acres were originally purchased by George W. Vanderbilt, our company's founder, in the late 1800s while building the Biltmore Estate. It was also home to his Buck Spring Cabin, a hunting retreat for his family and friends.

Milepost 408 at the Hampton Inn & Suites welcomes you to our retreat, and we invite you to sip, eat and stay a while.
